- Fullstack Development
- Python Development
- Mern Stack
- SQL
- Software testing
- React.js
- Angularjs

LANGUAGES KNOWN

English (Both)
Hindi (Both)
Marathi (Both)
Spanish (Both)

CERTIFICATIONS

- Data Science
- The Complete 2024 Web Development Bootcamp

Yash Kohinkar

PERSONAL DETAILS

Current Location	Pune
Date of Birth	March 11, 2002
Male	

EDUCATION

Graduation

Course	B.Tech/B.E. (Information Technology)
College	DY Patil College of Engineering, Ambi
Score	8.1%

Schooling	Class XII	Class X
Board Name	Maharashtra	Maharashtra
Medium	English	English
Year of Passing	2020	2018
Score	64%	84%

INTERNSHIPS

YBI Foundation | August 2022 - September 2022

- At YBI Foundation, I am part of a team that develops and maintains machine learning models for various social impact projects, using Machine Learning tools and Python. I have contributed to the design, implementation, testing, and debugging of several features and functionalities, such as user interfaces, data visualization, and security. I have also applied my machine learning and AI knowledge to analyze and interpret large datasets and provide insights and recommendations for improving the outcomes and impact of the projects. I am motivated by the opportunity to use my skills and creativity to solve real-world problems and make a positive difference in the lives of others.

PROJECTS

Water Quality Prediction using LSTM and GRU models in deep learning | January 2024 - June 2024

- To create a water quality prediction model using supervised machine learning. It uses GRU and LSTM models to predict water quality. It predict water quality by learning different water quality parameters.

Mobile Price Prediction | September 2022 - October 2022

- To predict cost of smartphone according to the wear and tear and its current condition

Heart Disease Prediction using Machine Learning | August 2022 - October 2022

- I have contributed to the design, implementation, testing, and debugging of several features and functionalities, such as user interfaces, data visualization, and security. I have also applied my machine learning and AI knowledge to analyze and interpret large datasets and provide insights and recommendations for improving the outcomes and impact of the projects.

AWARDS AND HONOR

- Award for Project development

ACHIEVEMENTS

- All rounder in B.Tech/B.E.
